

Download the Version That Is Right for You

Ready-to-print posters

If you do not need to change the text, send the PDF files in the appropriate language to a local printer. If you need 500 or fewer posters, instruct the printer to make digital prints on a Canon Fiery or similar color printer (ask the printer to use recycled paper and a minimum weight of 100 lb. text). If you'd like to have posters larger than A3, let your printer know that the image is a vector graphic and can be scaled up to any size required.

Customize posters to your language

If you need to change the text to another language, use UNFPA or Arial font. Try to replicate the font size, color and placement as in the posters provided. After adding the text to your chosen image, save as print-quality (highest) PDF files. Generic versions of both posters are provided.

Animation

The versions provided are for all online distribution. If you need a broadcast quality version of the animation, please contact Christian Delsol, delsol@unfpa.org
