

Alien Child - Born To Rise (Lyrics)

We have a feeling
Things are changing
And they're better than ever

Don't try to stop us
Cause we're liking
Where the arrow is pointing

Feel like I can deliver
What's in my head and
I am unstoppable, oh, oh
Let your mind open wide and
We can begin a new day, I promise my darling

Ah
We were born to thrive
Yeah, we were born to rise ya ya ya
Ah
Look into my eyes
No time to second guess, no maybe

La, la, la, la, la, la, la, la, la, la
Girl, we're thriving
X2

You got to embrace
Got to be brave
Listen to all the voices

Feel like I can deliver
What's in my head and
I am unstoppable oh oh
Let your mind open wide and
We can begin a new day, I promise my darling

Ah
we were born to thrive
Yeah, we were born to rise ya ya ya
Ah
Look into my eyes
No time to second guess, no maybe

La, la, la, la, la, la, la, la, la, la
Girl, we're thriving
X2

When a woman speaks up
She speaks with her heart
Can you feel that power?
Spoken with love
