Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	1. Strategic Focus	1. Coordination, Advocacy Role and Strategic Partnerships: UNFPA to operate through strategic partnerships as the key mode of engagement, continue to strengthen partnerships and innovations (for CP6 and continue through CP7). Leverage innovation across the organization and with strategic partners to amplify the impact. UN presence is strong in Mongolia and the need to reinstate UNFPA country representation status is crucial for enhancing visibility and continued cordial coordination with the government. Continue to strengthen the relevant strategic partnerships with key government, non-government and private organizations. Given the mode of engagement and programme needs, UNFPA to maintain its leadership and continue to support and assist the government with strategy and policy development.	Accepted	Mongolia CO	High	1.1 Strengthening strategic partnerships	1.1.1 In consultation with APRO, the CO will seek an official written request from the Ministry of Foreign Affairs (MOFA) to reinstate the representative status of UNFPA in Mongolia, and initiate dialogue with the HQ for its realization starting from CP7.	12/30/22	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	1. Strategic Focus	1. Coordination, Advocacy Role and Strategic Partnerships: UNFPA to operate through strategic partnerships as the key mode of engagement, continue to strengthen partnerships and innovations (for CP6 and continue through CP7). Leverage innovation across the organization and with strategic partners to amplify the impact. UN presence is strong in Mongolia and the need to reinstate UNFPA country representation status is crucial for enhancing visibility and continued cordial coordination with the government. Continue to strengthen the relevant strategic partnerships with key government, non-government and private organizations. Given the mode of engagement and programme needs, UNFPA to maintain its leadership and continue to support and assist the government with strategy and policy development.	Accepted	Mongolia CO	High	1.1 Strengthening strategic partnerships	1.1.2 The UNFPA will proactively incorporate up-stream level interventions in CP6 and CP7, including: i) organize high-level discussions addressing increased maternal mortality due to COVID-19 and needs for strengthening SRH services during emergencies; ii) accelerate the implementation of the Nairobi commitments by advocating to include specific interventions in the 2022 work plans of partners such as the Parliament, the Parliament Standing Committee on Social Protection, the National Human Rights Commission (NHRC), the Ministry of Health (MOH) and Ministry of Labour and Social Protection (MLSP); iii) support the Ministry of Education and Science (MOES) capacity building of teachers to teach CSE to ensure the quality of Comprehensive Sexuality Education (CSE) in schools; iv) advocate and explore opportunities for resource mobilization among international development and private partners to build on strengthening youth development centers in local provinces as an entry point for young people to identify the market needs for young people and support skills-building capacities among youth;	12/30/22	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	1. Strategic Focus	1. Coordination, Advocacy Role and Strategic Partnerships: UNFPA to operate through strategic partnerships as the key mode of engagement, continue to strengthen partnerships and innovations (for CP6 and continue through CP7). Leverage innovation across the organization and with strategic partners to amplify the impact. UN presence is strong in Mongolia and the need to reinstate UNFPA country representation status is crucial for enhancing visibility and continued cordial coordination with the government. Continue to strengthen the relevant strategic partnerships with key government, non-government and private organizations. Given the mode of engagement and programme needs, UNFPA to maintain its leadership and continue to support and assist the government with strategy and policy development.	Accepted	Mongolia CO	High	1.1 Strengthening strategic partnerships	1.1.3 The CO will continue seeking capacity-building opportunities for the staff on priority areas and have a position of programme analyst on population and development and involve APRO staffs and experts in the areas where the CO lacks expertise.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	1. Strategic Focus	1. Coordination, Advocacy Role and Strategic Partnerships: UNFPA to operate through strategic partnerships as the key mode of engagement, continue to strengthen partnerships and innovations (for CP6 and continue through CP7). Leverage innovation across the organization and with strategic partners to amplify the impact. UN presence is strong in Mongolia and the need to reinstate UNFPA country representation status is crucial for enhancing visibility and continued cordial coordination with the government. Continue to strengthen the relevant strategic partnerships with key government, non-government and private organizations. Given the mode of engagement and programme needs, UNFPA to maintain its leadership and continue to support and assist the government with strategy and policy development.	Accepted	Mongolia CO	High	1.1 Strengthening strategic partnerships	1.1.4 The CO will continue building on the partnership with the NHRC and National Committee on Gender Equality (NCGE) to identify specific issues/gaps in the programming by providing solid data and sharing knowledge in advocacy for sensitive issues on human rights. The CO will work with these partners to address these gaps/issue in CP6 and organize series of the meetings, workshops to identify the needed activities for CP7.	12/30/22	YES

Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017- 2020	1/1/15	5/30/16	1. Strategic Focus	1. Coordination, Advocacy Role and Strategic Partnerships: UNFPA to operate through strategic partnerships as the key mode of engagement, continue to strengthen partnerships and innovations (for CP6 and continue through CP7). UN presence is strong in Mongolia and the need to reinstate UNFPA country representation status is crucial for enhancing visibility and continued cordial coordination with the government. Continue to strengthen the relevant strategic partnerships with key government, non-government and private organizations. Given the mode of engagement and programme needs, UNFPA to maintain its leadership and continue to support and assist the government with strategy and policy development.	Accepted	Mongolia CO	High	1.1 Strengthening strategic partnerships	1.1.5 The CO will focus and incorporate activities on strengthening the partnership with the organizations of persons with disabilities (PWDs) and their local branches and local authorities and identify other civil society organizations (CSOs) to partner in the CP7.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017- 2020	1/1/15	5/30/16	1. Strategic Focus	1. Coordination, Advocacy Role and Strategic Partnerships: UNFPA to operate through strategic partnerships as the key mode of engagement, continue to strengthen partnerships and innovations (for CP6 and continue through CP7). Leverage innovation across the organization and with strategic partners to amplify the impact. UN presence is strong in Mongolia and the need to reinstate UNFPA country representation status is crucial for enhancing visibility and continued cordial coordination with the government. Continue to strengthen the relevant strategic partnerships with key government, non-government and private organizations. Given the mode of engagement and programme needs, UNFPA to maintain its leadership and continue to support and assist the government with strategy and policy development.	Accepted	Mongolia CO	High	1.1 Strengthening strategic partnerships	1.1.6 The UNFPA will continue to lead Outcome 3 of UNDAF, UN Gender theme group and GBV Sub-cluster within Humanitarian Country Team. Furthermore, UNFPA will take up leaderships responsibility within a broader development cooperation group to ensure the coordination among UN, other development and government, CSO partners, and play technical experts role in the areas of gender equality and women's empowerment in CP6 and CP7. The CO will focus and incorporate the following actions in CP6 and CP7 on strengthening the strategic partnership with the relevant parties: i) carry out continuous systematic discussions with the Coordination Council of Crime Prevention (CCCP) as well as with the Local sub councils on improving the coordination and allocation of funds for gender equality promotion activities and GBV response; ii) continuous advocacy towards Ministry of Finance on creating effective mechanism on sustainable financing for gender/GBV response such as Gender Sensitive Budgeting etc. iii) strengthening media partnership on systematically covering gender equality, women's empowerment and GBV issues; iv) strengthening partnership with other UN Agencies including UNDP, UNICEF and others on promoting gender equality and women's empowerment through effective coordination and collaboration.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017- 2020	1/1/15	5/30/16	1. Strategic Focus	1. Coordination, Advocacy Role and Strategic Partnerships: UNFPA to operate through strategic partnerships as the key mode of engagement, continue to strengthen partnerships and innovations (for CP6 and continue through CP7). UN presence is strong in Mongolia and the need to reinstate UNFPA country representation status is crucial for enhancing visibility and continued cordial coordination with the government. Continue to strengthen the relevant strategic partnerships with key government, non-government and private organizations. Given the mode of engagement and programme needs, UNFPA to maintain its leadership and continue to support and assist the government with strategy and policy development.	Accepted	Mongolia CO	High	1.1 Strengthening strategic partnerships	1.1.8 The CO will focus and incorporate the following actions in CP6 and CP7 on strengthening the strategic partnership with the relevant parties: organize regular meetings and discussion with the Parliamentarian Standing Committee on Social Policy and Female parliamentarians' caucus on key UNFPA mandate areas: Gender equality and women's empowerment, GBV/DV, youth development, maternal health.	12/30/22	YES

Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	1. Strategic Focus	2. CP7 to focus on integrated programming with a more synergistic approach: UNFPA to apply a more synergistic approach in the design and implementation of programmes coordinating with other development partners who have similar broad objectives aiming at same beneficiary/target populations. Include theories of change that encompass the entire results chain, including the joint programmes linking how the results contribute to overall CP (CP7) results framework. Update TOC as new interventions (pilots, joint programmes) are added/planned and agree on indicators for results achievement with a clear linkage to the existing ME framework), engaging all participating programme staff.	Accepted	Mongolia CO	High	2.1 Ensuring synergistic approach for CP7 development and implementation.	2.1.1 The CO will develop the theory of change (TOC) for each outcome of CP7 and results framework with the technical support from APRO through series of workshops and consensus meetings with key stakeholders, including relevant community representatives.	12/30/22	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	1. Strategic Focus	2. CP7 to focus on integrated programming with a more synergistic approach: UNFPA to apply a more synergistic approach in the design and implementation of programmes coordinating with other development partners who have similar broad objectives aiming at same beneficiary/target populations. Include theories of change that encompass the entire results chain, including the joint programmes linking how the results contribute to overall CP (CP7) results framework. Update TOC as new interventions (pilots, joint programmes) are added/planned and agree on indicators for results achievement with a clear linkage to the existing ME framework), engaging all participating programme staff.	Accepted	Mongolia CO	High	2.1 Ensuring synergistic approach for CP7 development and implementation.	2.1.2 The CO will continue capacity building on Results-based Management and Change Management for the staff during CP6 implementation and plan the capacity building of CO staffs and core IPs in CP7.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	1. Strategic Focus	2. CP7 to focus on integrated programming with a more synergistic approach: UNFPA to apply a more synergistic approach in the design and implementation of programmes coordinating with other development partners who have similar broad objectives aiming at same beneficiary/target populations. Include theories of change that encompass the entire results chain, including the joint programmes linking how the results contribute to overall CP (CP7) results framework. Update TOC as new interventions (pilots, joint programmes) are added/planned and agree on indicators for results achievement with a clear linkage to the existing ME framework), engaging all participating programme staff.	Accepted	Mongolia CO	High	2.1 Ensuring synergistic approach for CP7 development and implementation.	2.1.3 The CO will continue to lead and explore opportunities to implement joint and integrated programmes with other UN agencies and partners under UNDAF 2017-2022 and CP6 and CP 7. Furthermore, the CO will closely work with the strategic partners on the precise definition of indicators linked to TOC of CP6 and C7 and define the roles and responsibilities with explicit sustainability strategies according to expertise areas of participating parties.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	1. Strategic Focus	2. CP7 to focus on integrated programming with a more synergistic approach: UNFPA to apply a more synergistic approach in the design and implementation of programmes coordinating with other development partners who have similar broad objectives aiming at same beneficiary/target populations. Include theories of change that encompass the entire results chain, including the joint programmes linking how the results contribute to overall CP (CP7) results framework. Update TOC as new interventions (pilots, joint programmes) are added/planned and agree on indicators for results achievement with a clear linkage to the existing ME framework), engaging all participating programme staff.	Accepted	Mongolia CO	High	2.1 Ensuring synergistic approach for CP7 development and implementation.	2.1.4 The CO will carry out the evaluability assessment (ex-ante evaluations) for each outcome of CP7, assessing the availability of data, data sources and gaps for measuring progress on the programme's onset. To prevent overlapping interventions and improve the effective utilization of resources, CO will ensure the active participation of stakeholders and partners, including CSO, at the designing stage of CP7 through the series of open dialogues, meetings and workshops. Furthermore, in close consultation and guidance with the RO and HQ, the CO will identify cross-cutting areas for all programme components to ensure synergy in designing CP7 and introduce new tools/methodologies in the process of developing/designing CP7 to ensure synergy between the programme components.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	1. Strategic Focus	3. Country Office to diversify Resource Mobilization (within as well as outside the country), going beyond current established partnerships and traditional resource mobilization methods, anticipating the budgetary changes/reductions in core-resources for CP7.	Accepted	Mongolia CO	High	3.1 Expanding partnership on resource mobilization	3.1.1 The CO will actively and broadly promote the successes and positive changes of interventions/pilots and initiatives started in CP6, such as an integrated support programme (ISP). At the beginning of CP7, the CO will undertake a systematic partnerships mapping and analysis to continue building upon existing partnerships and exploring opportunities for replicating successful initiatives/interventions in other sites.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	1. Strategic Focus	3. Country Office to diversify Resource Mobilization (within as well as outside the country), going beyond current established partnerships and traditional resource mobilization methods, anticipating the budgetary changes/reductions in core-resources for CP7.	Accepted	Mongolia CO	High	3.1 Expanding partnership on resource mobilization	3.1.2 The CO will explore the opportunity to mobilize resource through non-traditional methods with the technical guidance of APRO and HQ.	12/30/22	YES

Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	1. Strategic Focus	4. UNFPA's comparative advantage in population dynamics to be fully utilized. Therefore, CP7, and if possible, in CP6 as well, include PD core strategic area in the work plan and allocate resources for technical expertise as required. Support for increased availability of disaggregated quality data for evidence-based policymaking, understanding populations dynamics (ageing, migration, urbanization etc), planning, implementation, monitoring and evaluation, specifically covering youth and marginalized groups to begin with as these have already been part of CP6.	Accepted	Mongolia CO	High	4.1 Improving the availability and quality of disaggregated population data on population groups to better understand the population dynamics in the country.	4.1.1 The CO will actively and broadly promote the successes and positive changes of interventions/pilot initiatives started in CP6, such as an integrated support programme (ISP). At the beginning of CP7, the CO will undertake a systematic partnerships mapping and analysis to continue building upon existing parThe CO will support key surveys and analysis on population dynamics to enable reliable and disaggregated data in CP7 with the following: i) Organize and mobilize resources and proactively support the National Statistical Office (NSO) in the development of the questionnaire for the Social Indicator Sample Survey 2023 and 2025 mid-census to guard the availability of data for the UNFPA priority indicators disaggregated by gender, specific age groups, geographical distribution and disability status; ii) Organize regular meetings with the Parliamentarian Standing Committee on Social Policy, MLSP, NSO and CSOs to ensure that the GBV study is conducted every ten years by advocating for amendments to the Law on Statistics; iii) Complete the ongoing analysis and review of Population Situation Analysis and Mid-term Review of State Policy on Population Development, and incorporate the recommendations and findings for the development of UNDSF/CCA/CP 7, and the National Human Development Programme commissioned by the National Development Agency and being formulated by the MLSP; iv) Support the capacity of the NSO to report the data on ageing in the CP7. v) Organize regular media campaigns to promote the importance of these surveys and use the findings in policy and implementation documents.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	1. Strategic Focus	4. UNFPA's comparative advantage in population dynamics to be fully utilized. Therefore, CP7, and if possible, in CP6 as well, include PD core strategic area in the work plan and allocate resources for technical expertise as required. Support for increased availability of disaggregated quality data for evidence-based policymaking, understanding populations dynamics (ageing, migration, urbanization etc), planning, implementation, monitoring and evaluation, specifically covering youth and marginalized groups to begin with as these have already been part of CP6.	Accepted	Mongolia CO	High	4.2 Advocate for the youth participation and the youth programmes under the ICPD Nairobi Summit national voluntary commitments.	4.2.1 The UNFPA will incorporate the high-level advocacy meetings with National Youth Council headed by Prime Minister to support MLSP on increasing the budget allocation for youth development and participation through the youth development centers nationwide in CP7.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	2. Programme Focus	5. Given the complexity of the GBV and DV issues in Mongolia, discuss the possibility of adopting and implementing the National Action Plan Combating Domestic Violence: Downstream level interventions of CP has focused certain provinces and districts only and therefore it is important to support and advocate for programmes that ensures budget sustainability and strengthen multi-sectoral cooperation and response to DV across the country.	Accepted	Mongolia CO	High	5.1 Strengthen and expand the service to GBV and DV survivors and prevention of GBV and DV.	5.1.1 The CO will implement the following key interventions on improving the service of One-Stop Service Centres (OSSCs) and shelters and expanding the service to survivors, including economic empowerment of GBV and DV survivors throughout CP6. 1) Support the CCCP and multidisciplinary team on better coordination, monitoring and technical assistance to OSSCs and shelter services operating throughout the country; 2) Support to the selected OSSCs and shelters to expand the service, including economic empowerment initiatives; 3) Support the development and implementation of related guidelines and SOPs to provide user-friendly services to PWDs, and other vulnerable groups experienced GBV and DV; 4) Capacity building for the service providers of all OSSCs and shelters and police personnel, social workers, health workers and education professionals. Above mentioned key strategic interventions on strengthening multi-sectoral response to GBV and expanding service of OSSCs and shelters for survivors (economic empowerment, psychological counselling, user friendly service to the PWD and other vulnerable groups) will be incorporated in CP7.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	2. Programme Focus	5. Given the complexity of the GBV and DV issues in Mongolia, discuss the possibility of adopting and implementing the National Action Plan Combating Domestic Violence: Downstream level interventions of CP has focused certain provinces and districts only and therefore it is important to support and advocate for programmes that ensures budget sustainability and strengthen multi-sectoral cooperation and response to DV across the country.	Accepted	Mongolia CO	High	5.1 Strengthen and expand the service to GBV and DV survivors and prevention of GBV and DV.	5.1.2 The CO will continue to support the newly established data bases as eGBV data system at the National Police Agency (NPA), etuslamj GBV service data system at the MLSP and GBV repository datahub at the NCGE to fully functional and sustainable databases in CP6. And the continued collaboration with relevant partners in strengthening these databases will be incorporated in CP7.	12/30/23	YES

Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	2.Programme Focus	5. Given the complexity of the GBV and DV issues in Mongolia, discuss the possibility of adopting and implementing the National Action Plan Combating Domestic Violence: Downstream level interventions of CP has focused certain provinces and districts only and therefore it is important to support and advocate for programmes that ensures budget sustainability and strengthen multi-sectoral cooperation and response to DV across the country.	Accepted	Mongolia CO	High	5.1 Strengthen and expand the service to GBV and DV survivors and prevention of GBV and DV.	5.1.3 The UNFPA will implement interventions on promoting, educating and engaging men and boys in GBV and DV prevention programmes through CP6 and incorporate these in CP7 strategic interventions. These are: i) Pilot the Comprehensive Community-based GBV/DV behaviour change model at the selected sites (The Comprehensive Community-based BCC Model includes: School-based interventions including CSE, parent education and safe school initiatives; Community based interventions including outreach work, creating support groups, community engagement etc.; Media based interventions including public awareness-raising on addressing harmful discriminative social norms, addressing gender inequality and women's empowerment). ii) Development of guidelines and training manual on engaging men and boys in ending GBV/DV and conduct training; iii) Establish and pilot a model center for voluntary perpetrator rehabilitation and counselling in Ulaanbaatar and establish a mandatory perpetrator behavior change training center at selected provinces.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	2.Programme Focus	6. Continue supporting NCMCH, participating hospitals and school of nursing to ensure sustainability of the interventions including midwifery education, that are introduced through MCH telemedicine projects, and implementation of unfinished business of utilization of mobile application programme, and possibilities of introduced new approaches into the other disciplines of health care.	Accepted	Mongolia CO	High	6.1 Improving clinical competencies in obstetric risk reduction and strengthening MCH case management through a collaborative team approach based on digital health innovations.	6.1.1 The CO will assess the implementation of midwifery education reform and the status of a newly introduced job description and advocate the decision-makers at the MOH and MoES to comply with the scope of midwifery practice as defined by the International Confederation of midwives and WHO.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	2.Programme Focus	6. Continue supporting NCMCH, participating hospitals and school of nursing to ensure sustainability of the interventions including midwifery education, that are introduced through MCH telemedicine projects, and implementation of unfinished business of utilization of mobile application programme, and possibilities of introduced new approaches into the other disciplines of health care.	Accepted	Mongolia CO	High	6.1 Improving clinical competencies in obstetric risk reduction and strengthening MCH case management through a collaborative team approach based on digital health innovations.	6.1.2 With technical support from APRO, and using the evidence from the State of the World Midwifery 2021 Report, and the vision of the Global Strategic Directions for Midwifery 2021-2025, UNFPA will include interventions in CP7 to engage with the government, teaching hospitals and academic institutions on key areas in strengthening midwifery such as education, jobs, leadership, and service delivery with emphasis on enabling midwives to provide quality family planning, and adolescent and youth-friendly SRH services. For instance, the CO will provide support for enrolling midwives in eastern three provinces in the certified training on insertion and removal of long-acting reversible contraceptives such as IUDs and implants in CP6 (Q3 2021). If pilot is successful, the CO will include the training nationwide in CP7.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	2.Programme Focus	6. Continue supporting NCMCH, participating hospitals and school of nursing to ensure sustainability of the interventions including midwifery education, that are introduced through MCH telemedicine projects, and implementation of unfinished business of utilization of mobile application programme, and possibilities of introduced new approaches into the other disciplines of health care.	Accepted	Mongolia CO	High	6.1 Improving clinical competencies in obstetric risk reduction and strengthening MCH case management through a collaborative team approach based on digital health innovations.	6.1.3 The CO will incorporate the interventions to ensure the availability and utilization of the competency-based learning environment, both clinical and simulation-based, for continuous medical education in Emergency Obstetric and Essential Newborn care and family planning for health professionals, including midwives in CP7. The simulation-based skill development laboratories and drilling stations have already been established by the end of Telemedicine project funded by the government of Luxembourg in 2019. With support from UNFPA, the NCMCH is developing simulation-based training modules for clinical staff, including residents and midwives on postpartum hemorrhage, hypertensive disorders and obstructed labor.	12/30/23	YES

Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	2.Programme Focus	6. Continue supporting NCMCH, participating hospitals and school of nursing to ensure sustainability of the interventions including midwifery education, that are introduced through MCH telemedicine projects, and implementation of unfinished business of utilization of mobile application programme, and possibilities of introduced new approaches into the other disciplines of health care.	Accepted	Mongolia CO	High	6.1 Improving clinical competencies in obstetric risk reduction and strengthening MCH case management through a collaborative team approach based on digital health innovations.	6.1.4 In line with the government digital evolution strategy and UN Country Team actions to implement the Secretary-General's Roadmap for Digital Cooperation, the CO will provide interventions to explore and support the use of technological advances such as telemedicine, chatbots or mobile phone applications, to improve access to the SRH information, counselling and services to ensure that no one is left behind. UNFPA will continue to advocate for efficient utilization of teleconsultation services as a collaborative and life-saving approach in maternal and newborn care that integrates into the national health system covered by a health insurance scheme in CP6 and CP7.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	2.Programme Focus	6. Continue supporting NCMCH, participating hospitals and school of nursing to ensure sustainability of the interventions including midwifery education, that are introduced through MCH telemedicine projects, and implementation of unfinished business of utilization of mobile application programme, and possibilities of introduced new approaches into the other disciplines of health care.	Accepted	Mongolia CO	High	6.1 Improving clinical competencies in obstetric risk reduction and strengthening MCH case management through a collaborative team approach based on digital health innovations.	6.1.5 UNFPA will include the actions to support the creation of midwifery-led adolescent health clinics to contribute UHC and SDG agenda. Action is required to strengthen political commitment and leadership at the country level, SRMNAH health systems to introduce midwifery-based adolescent specialist program to achieve sustainable benefits for the health and well-being of adolescents in CP7. For instance, the CO will include i) a consultative meeting among stakeholders to present the advantages of training midwives to work as adolescent doctors, ii) advocacy to MOH for amendment in the general hospital standard that trained midwives can run clinics and iii) support the development of a curriculum for the training midwives on adolescent and youth-friendly healthcare.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	2.Programme Focus	7. Continue providing technical and financial support to ensure sustainable and uninterrupted delivery of family planning services at all levels of health care, including private health care facilities, i.e. FHCs.	Accepted	Mongolia CO	High	7.1 Repositioning family planning.	7.1.1 The CO will support MOH to conduct the survey on the availability of modern contraceptives at the primary health care and referral HC (district and provincial health centers) during CP6 implementation. The findings will advocate the government to continue the funding for modern contraceptives as a life-saving approach to prevent maternal deaths despite COVID-19 challenges. There have been already anecdotal reports that the funding for contraceptives are being used for PPE. The capacity building of midwives to provide long-acting reversible contraception and family planning counselling and services for adolescents and youth will continue in CP6 and be included in CP7.	12/30/23	YES
Mongolia Country Programme Evaluation (2017-2020)	2020	Mongolia CO	Country Programme Evaluation (CPE)	AP	Evaluation Coverage Time Period -	2017-2020	1/1/15	5/30/16	2.Programme Focus	7.
