Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Cluster Strategic Recommendation 1	All four UNFPA programmes should focus on fewer outputs that are focused on interventions within UNFPA's core mandates in order to get efficiency gains. It is recommended that UNFPA programmes in the four countries/territory focus primarily on two areas: SRHR and PD, both of which are well within UNFPA traditional mandate and do not overlap with other UN agencies. These two programme focus categories should be kept narrow in focus but can address specific target groups and focus areas, such as youth, marginalized populations, and women victims of GBV. Continued work on PD policy making and monitoring, with a focus on data, are extremely important and therefore recommended as a priority for all four countries/territory.	Accepted	High	CPD Development	Kosovo CO will focus on SRHR and PD at the time of next CPD development.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matani@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Cluster SRH Recommendation 1	All four countries/territory should continue and expand to work on family planning service delivery, including advocacy for Ministry of Health support for contraceptive procurement, to reduce unmet need and reliance on abortions for unplanned pregnancy.	Accepted	High	Continuation of training in Family Planning	Kosovo CO will continue organisation of Family Planning Sexually Transmitted Infections/HIV trainings for family medicine health care providers.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matani@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Cluster SRH Recommendation 2	UNFPA programmes in all four countries/territory should adjust interventions to the needs of specific population groups, including marginalized and vulnerable groups (Roma, people with disabilities and young adolescent girls) and develop tailor-made interventions for these groups.	Accepted	High	Focusing interventions to most Vulnerable Groups	Kosovo CO will focus on interventions that will ensure inclusion of the most marginalized and vulnerable groups (Roma Ashakali and Egyptian/RAE community, people with disabilities, young girls)	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matani@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Cluster SRH Recommendation 3	The UNFPA programmes in all four countries/territory should focus on developing and supporting an economical approach for cervical cancer screening and treatment that can be gradually expanded to serve all parts of each country/territory.	Accepted	Medium	Expanding CC Screening	Kosovo CO will continue advocacy and coordination support in expanding cervical and breast cancer screening programmes nation wide.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matani@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Cluster SRH Recommendation 4	In all four countries/territory, UNFPA should continue to support work related to maternal health, and in particular work on maternal mortality and morbidity surveillance.	Accepted	Low	Maternal Mortality and Morbidity Surveillance	Kosovo CO will continue cooperation with Ministry of Health and with Eastern European Institute for Reproductive Health from Romania and EECA RO on development of Obstetric Surveillance and Response System platform for continuous maternal mortality and morbidity surveillance.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matani@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Cluster SRH Recommendation 5	In all four countries/territory, UNFPA should continue to support work related to Minimum Initial Service Package to ensure that it is fully functional in time of need within each country's response system for health emergencies.	Accepted	Medium	Emergency Preparedness/ Minimum Initial Service Package Implementation	Kosovo CO will continue cooperation with Ministry of Health, Agency for Management of Emergencies, Municipalities and with Kosovo Red Cross in promoting and inclusion of Minimum Initial Service Package in relevant Action Plans including capacity development of Health Care Providers in implementation of Minimum Initial Service Package. In addition Kosovo CO will continue to cooperate with other UN Agencies in country on development of localised disaster risk reduction plans and contingency planning by ensuring Minimum Initial Service Package is incorporated in those plans.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matani@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Cluster Youth and Adolescence Recommendation 1	In all four countries/territory UNFPA programmes should support efforts to work within public primary and high schools to support the development of effective Comprehensive Sexuality Education curricula and training of appropriate types and quantity of teachers for expansion of Comprehensive Sexuality Education in cooperation with national educational systems. These efforts may require additional expertise from the Regional Office to assist the COs on a short-term basis to support advocacy, policy dialogue and technical assistance with the pertinent Government agencies.	Accepted	High	Comprehensive Sexuality Education	Kosovo CO will continue partnership and support to Ministry of Health in capacity building of teachers in implementing approved Comprehensive Sexuality Education curricula in all public schools.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matani@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Cluster Youth and Adolescence Recommendation 2	In all four countries/territory, UNFPA should consider implementing programmes that address SRH, gender stereotypes and GBV among young men and scale up these programmes as much as feasible. There should be a regional review of male oriented programme initiatives within the four nations in order to develop a four-nation collaboration effort. Each of the four countries should develop male oriented program efforts that are narrowly focused and provide the best opportunity to capitalize on prior local and regional experience.	Accepted	Medium	Gender Equality	Kosovo CO will continue to implement interventions related Men involvement in promotion of GE prevention of GBV through Men Care, and be a Men Programs including involving of Faith Based Organizations and Religious leaders	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matani@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Cluster Youth and Adolescence Recommendation 3	Develop or assist government institutions and NGO organizations to develop and maintain a mobile phone application for SRHR is important step that has potential to achieve the intended impact if widely used by young people. UNFPA should consider developing and implementing applications for mobile devices for young people.	Partially accepted	Medium	SRHR Mobile Platforms	Kosovo CO was part of joint (Kosovo, Moldova and Kyrgyzstan) innovation initiative in developing Mobile phone application on SRH. However, due to admin/procedures by HQ it was never approved for release. Pending availability of funding Kosovo office will try to join UNICEF platform on health "Shine" on sexuality Education of Youth in Kosovo.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matani@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	GE and GBV Recommendation 1	UNFPA programmes in all four countries/territory should remain active in the field of Gender Equality and GBV and continue supporting capacity building of health professionals throughout their respective countries/territory. Gender Equality and GBV activities should be discontinued as a separate initiative; they should be continued as part of upgrading the capacities of health professionals through future UNFPA supported SRH initiatives.	Accepted	Medium	Gender Equality and GBV	Kosovo CO will continue to support capacity building of Health Care Providers addressing GBV including Serb minority in Northern Kosovo.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matani@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Population and Development Recommendation 1	In all four countries/territory the UNFPA programme should continue to extend support to the national partners, notably the national agencies responsible for statistics, to enhance knowledge and the instruments for collection and dissemination of data relevant for improved national population statistics.	Accepted	High	Population Data	Kosovo CO will continue to support Statistical Agency, National Institute of Public Health and Agency for Civil Registration in collecting, analysing and publishing population data including Civil Registration.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matani@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Population and Development Recommendation 2	UNFPA programmes in each country/territory need to support and participate in the MICS6 activities (or in the case of BiH, consider providing support for a Demographic Health Survey or other type of survey) as much as feasible to ensure the key demographic data are collected for UNFPA programme development and monitoring.	Accepted	High	Demographic Health Survey /MICS	Kosovo CO has already supported MICS 6 in 2019. The results are expected to be launched in 2020.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matani@unfpa.org

Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Monitoring and Evaluation Recommendation 1	The UNFPA office in Kosovo is recommended to introduce a more detailed M&E framework and invest more in data collection tools in the future programming document. The UNFPA should invest in the preparation of a detailed M&E matrix that captures the capacity and performance improvements and possible impact level changes for all interventions such as Mother and Child Health, Cervical Cancer Screening Program, SRH services, as well as the behavioural changes of targeted population on SRH gender equality etc.	Accepted	High	M&E	Kosovo'CO will ensure development of more detailed M&E framework and invest in data collection to demonstrate better the impact. Lack of Health Information System may impact data gathering to show capacity and performance improvements in health services.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matemi@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	SRHR Recommendation 2	UNFPA is suggested to further improve the allocative efficiency of the programme by reallocation of funds towards interventions with stronger results and by consolidating interventions within each area of work, due to limited available resources.	Accepted	High	SRHR component	Kosovo'CO will consolidate interventions and funds within each area towards better efficiency and stronger results. However, UNFPA interventions depend on national strategic priorities.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matemi@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	SRHR Recommendation 3.H 17G17.R17	UNFPA's efforts should be directed first to explore whether conditions (creation of) full ownership and critical mass of commitment from institutions for a certain policy measure (in this case Clinical Guidelines and Protocol) (i) adequate capacities (which was built through training on the methodology of Clinical Guidelines and Protocol development) and (ii) appropriate processes (which was established through Administrative Instruction on Clinical Guidelines and Protocol), which is also entirely financed by sustainable funding mechanisms (by the Ministry's budget to design, implement and monitor policy initiatives by themselves) exist or can be developed especially in programmatic initiatives in relation to Mother Child, SRHR and Cervical Cancer Screening Programme and then decide to design or expand appropriate interventions in these focus areas in order to achieve greater and more sustainable results.	Partially accepted	High	SRHR Component	Kosovo'CO will continue to support Ministry of Health in strengthening its capacities for development of Clinical Guidelines and Protocol as the capacities are still not sufficient.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matemi@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	SRHR Recommendation 4	UNFPA should re-think its strategy towards introducing or strengthening Cervical Cancer Screening Program within the secondary healthcare system or invest heavily in changing the beliefs of targeted women population that such screening processes can be done by Primary Health Care through Family Physicians. UNFPA has to support the creation of sustainable quality controls and improvement of reading PAP smears within Pathologic Institute with periodic double checks of randomized samples locally and internationally and support further on a follow-up mechanism to reliably track the management cycle of suspicious or confirmed cases of cancer.	Partially accepted	High	SRHR (Cervical cancer)	Kosovo'CO is advocating and promoting Primary Health Care services for Cervical cancer screening. However, currently the law on Family Medicine does not allow the Family Physicians to do the pap smear only. GynObs UNFPA will support Pathology Institute to address the issue of quality control through double check and follow up of pap smears through engagement of international TA.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matemi@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	SRHR Recommendation 5	Use the results of the pilot Cervical Cancer Screening Programme to generate political will, critical mass of commitment and wider population support for upscaling the programme	Accepted	High	SRHR	Kosovo'CO through advocacy efforts have managed to support expansion of Cervical Cancer Screening Program in two additional Municipalities. It will continue to advocate with national institutions on national expansion and to include HPV vaccine in the vaccination calendar.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matemi@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	SRHR Recommendation 6	Support the Medical Professional Chamber, Primary Health Care Division in Ministry of Health towards achieving dynamic sustainability of training activities along with the development of a sustainable and standardised quality monitoring system of the effect of the training for Family Medicine to provide quality integrated SRH on family Planning and STI, and Youth Friendly Health Services.	Accepted	High	SRHR	Kosovo'CO has already established the partnership with Medical Professional Chamber for accreditation of Training Programmes on Family Planning, Sexually Transmitted Infections and GBV	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matemi@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Comprehensive Sexuality Education Recommendation 7	Consider expanding training to relevant teachers on sexuality education. The UNFPA should consider prioritising training for Biology teachers first, then target training of primary education teachers if there are significant budgetary limitations.	Accepted	High	Strengthening Comprehensive Sexuality Education	Kosovo'CO will continue partnership and support to Ministry of Education in capacity building of teachers in implementing approved Comprehensive Sexuality Education curricula in all public schools.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matemi@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Recommendation 8	Invest in data collection tools that will apply the same methodology in repeated terms after a certain period (usually four years) to be able to observe any changes in perceptions, attitudes and practices.	Accepted	High	M&E/Assessment of situation	UNFPA will explore the possibility of cooperation with UN agencies working with youth and gender equality, and various institutions to develop a data collection tool to assess perception, attitudes and practices in SRHR and gender equality among youth and wider.	nimani@unfpa.org	6/30/2021	mosoti@unfpa.org	matemi@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Recommendation 9	Continue to facilitate the working group on vital statistics to address issues for the establishment of long-term cooperation between various institutions.	Accepted	Medium	CRVS	UNFPA will continue to facilitate and support the dialogue between Kosovo Agency of Statistics Ministry of Health and Agency for Civil Registration, through various working groups throughout 2020, to establish a continuous cross-institutional cooperation and to lay the foundations for establishment of a CRVS system.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matemi@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Recommendation 9	Shift the support to demographic data analysis towards providing quality assurance assistance to Kosovo Agency of Statistics	accepted	Low	Data Quality Assurance	UNFPA Kosovo'CO will be a part of a Census 2021 monitoring group, to ensure the quality of Census. Based on needs raised by Kosovo Agency of Statistics, it will provide quality assurance through engagement of international and local TA.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matemi@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Recommendation 10	Expand measurement of many other SRHR indicators 135 through the next MICS survey (see above) alternatively produce a UNFPA sponsored report every four-to-five years for this purpose.	Partially accepted	Medium	SRHR/MICS/Demographic Health Survey	MICS6 is in a process, thus at this stage it is impossible to add other indicators. UNFPA, depending on budget availability, may support Demographic Health Survey for additional indicators that are not covered by MICS.	nimani@unfpa.org	12/31/2020	mosoti@unfpa.org	matemi@unfpa.org

Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Recommendation11	Given the success in initiating and developing the Clinical Guidelines and Protocol, UNFPA should shift the support to KC/Clinical Guidelines and Protocol on developing and implementing the quality monitoring of the Clinical Guidelines and Protocol implementation. Develop regular ad-hoc quality monitoring mechanisms within the Ministry of Health, Medical Chamber or Kosovo Obstetric and Gynaecologic Association (Kosovo Obstetric and Gynaecologic Association) to continuously monitor Effective Perinatal Care.	Accepted	High	SRHR	UNFPA will work closely with Division for Health Care Quality and Safety to reinforce the role of quality assurance officers to monitor Clinical Guidelines and Protocol implementation.	nimani@unfpa.org	12/31/2020	mosoli@unfpa.org	malam@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Recommendation12	Support achieving the dynamic sustainability of the Effective Perinatal Care support for both training and follow up visits) embedded entirely within the Ministry of Health, Medical Chamber or Kosovo Obstetric and Gynaecologic Association, as well as creating a critical mass of commitment from these institutions towards continues development of the Effective Perinatal Care service delivery.	Accepted	Low	SRHR	UNFPA will advocate with Gynaecology and Obstetrics Cathedra for inclusion of Effective Perinatal Care in university curricula. UNFPA will advocate with Ministry of Health, Ombudsman Institution of Kosovo and Kosovo Obstetric and Gynaecologic Association on importance and cost benefit of Effective Perinatal Care programme implementation.	nimani@unfpa.org	12/31/2020	mosoli@unfpa.org	malam@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Recommendation 13	UNFPA is suggested to work on and advocate about strengthening the accountability framework to create adequate incentives of Primary Health Care for the delivery of SRH services. In parallel, UNFPA is recommended to continue advocating for the Ministry of Health to establish a budget line for contraceptives and support further Ombudsman Institution of Kosovo capacities to perform oversight and accountability function towards institutions in fulfilling SRHR.	Accepted	High	FP budget line	UNFPA will continue advocating to the Ministry of Health on contraceptive security. Contraceptives are part of the Essential Drug List, and Ministry of Health will procure them through funding dedicated for medicines. However, the problem identified during last year was that no company bid for contraceptive commodities.	nimani@unfpa.org	12/31/2020	mosoli@unfpa.org	malam@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Recommendation 14	In the long run, work on the inclusion of the sexuality education into Ministry of Education Science and Technology ToT system to enhance the dynamic sustainability of the interventions.	Accepted	medium	Comprehensive Sexuality Education sustainability	UNFPA will support strengthening of Ministry of Education, Science and Technology curricula trainers on Comprehensive Sexuality Education	nimani@unfpa.org	12/31/2020	mosoli@unfpa.org	malam@unfpa.org
Kosovo Country Programme Evaluation	2019	Kosovo CO	Cluster Programme Evaluation (CPE)	EECA	Evaluation Coverage Time Period	2013-2018	1/1/2015	5/30/2016	Recommendation15	UNFPA needs to have a greater outreach and sustainability for peer education, and focus on digitalisation of the peer education content. Development of the mobile application for SRHR is important step in this direction. However, in order to achieve the intended impact, such content should be widely used by young people. Thus, the UNFPA should consider developing and implementing various promotion tools to reach out to young people. Such content should also be very much appealing for young people and might also require the establishment of a communication channel for follow up questions and answers by the young people.	Accepted	Medium	Youth outreach	UNFPA will work young people on increasing their capacities to design innovative learning approaches on SRHR, through UPSHFIT methodologies. However, innovative and digital approaches require additional budget which is very limited in a case of UNFPA compared to other Agencies.	nimani@unfpa.org	12/12/2020	mosoli@unfpa.org	malam@unfpa.org
