Message from the Director’s desk

To strengthen the delivery and use of high-quality evaluation results to inform the implementation of the new strategic plan for 2022-2025, the Evaluation Office is pleased to release the Country Programme Evaluation (CPE) Management Kit. The Kit serves as a companion to the Handbook on How to Design and Conduct a Country Programme Evaluation.

The Kit provides essential guidance, tools and templates to facilitate the preparation of a CPE and to help M&E officers and focal points develop the competencies to effectively manage and communicate a CPE.

The Kit follows a step-by-step approach and includes ready-to-use templates, guidance and resources to develop robust terms of reference, select qualified consultants and communicate on the evaluation process and on the CPE results.
The Country Programme Evaluation Management Kit is part of a wider effort to build internal evaluation capacities and further professionalization of evaluation at UNFPA.

Please reach out to Louis Charpentier (charpentier@unfpa.org) with any questions.

Marco Segone
Director, UNFPA Evaluation Office
