

COMMENTS ON THE UNFPA DRAFT COUNTRY PROGRAMME DOCUMENT FOR SAO TOME AND PRINCIPE

First regular session 2023

Comments by European Union	UNFPA country/regional office response to comments
Very relevant, focused and comprehensive within its focus on SRHR/gender equity from institutional capacity to youth/adolescent girls political and economic empowerment through awareness.	UNFPA welcomes this comment and is pleased that the country programme document is recognized for its relevance, focus and design. A fundamental strategy to accelerate progress of the three transformative results is through partnerships, particularly innovative collaborations to benefit the people of Sao Tome and Principe.
