<ul style="list-style-type: none">• Synergies and cooperation opportunities with the German development activities in Georgia should be ensured, in particular with the programme “EPIC - Economic and social participation of vulnerable displaced and local population in the Caucasus” in the fields of women and youth empowerment.	<p>The UNFPA country office in Georgia is grateful for this feedback and the recommendation to ensure synergies and cooperation opportunities with the German development activities in the area of women and youth empowerment, which will be definitely followed up by the Country Office. It is worth mentioning that the collaboration with the GIZ Office in Georgia has been ongoing since mid-2019, especially in the area of adolescent girls’ empowerment. It is hoped that the opportunities for collaboration will be further explored thanks to the new coordination platform initiated by the UN Theme Group on Youth Development, co-chaired by the UNFPA CO in Georgia and the Youth Agency.</p>
