REVISION OF UNFPA FINANCIAL REGULATIONS AND RULES

Report of the Executive Director

Summary

UNFPA is pleased to submit herewith the proposed revisions to the financial regulations and rules to become effective July 1, 2014. The Executive Board will also have at its disposal the complete revised version 10 of the financial regulations and rules which will be uploaded on the UNFPA website. This document incorporates the proposed changes where the type of change has been reflected within the document as applicable in accordance with the table below. This revision to the financial regulations and rules like the previous revision made in 2011 reflects continued harmonization with UNDP and UNICEF and covers the following changes:

Type of change	Regulations	Rules	Totals
Accounting practice	6	7	13
Business practice	7	8	15
Executive Board decision	14	10	24
Terminology update	24	31	55
TOTAL	51	56	107

In addition to a robust internal review by UNFPA management, all of the proposed revisions above have been thoroughly reviewed and discussed with the UNFPA Legal Office and UNFPA Office of Audit and Investigation Services (OAIS); the Board of Auditors, the Audit Advisory Committee of UNFPA and the United Nations Office of Legal Affairs. The proposed revisions provide detailed justifications for each of the proposed changes. The Executive Board will also have at its disposal the report of the Advisory Committee on Administration and Budgetary Questions (ACABQ) on the proposed revisions to the UNFPA financial regulations and rules (DP/FPA/2014/13).

The Executive Board may wish to take note of the present report, approve the revisions to the UNFPA financial regulations and take note of the changes to the financial rules contained therein, both to become effective July 1, 2014.

"cash equivalent" shall include checks, irrevocable letters of credit and other similar financial instruments that are short term, highly liquid, readily convertible to known amounts of cash and subject to insignificant risk of changes in value.	“Cash equivalents” is only used in the definition of fully funded. In light of this, and to add further clarity to what UNFPA actually includes within the definition of fully funded, cash equivalents shall not be included in the definition. However, the definition of fully funded has been expanded to include the cash and cash equivalent elements.

G.ii.	“global and regional programme” shall mean the programme of UNFPA assistance on a global and regional level.	“ programme <u>interventions</u> ” shall mean the programme <u>interventions for</u> UNFPA assistance on a global and regional level. Regulation 2.2. O.i.	"obligation" shall mean an engagement, such as a contract, agreement or undertaking that has been entered into, involving a liability against the resources of the current year in respect of a programme activity, or of the current budget period in respect of the institutional budget.	"obligation" shall mean an engagement, such as a contract, agreement or undertaking that has been entered into, involving a liability against the resources of the current year in respect of a programme activity, or of the current budget period in respect of the institutional budget.	Reference to obligation has been removed because the FRRs have been refined to apply the term commitment, which is more appropriate. The definition of "ex-gratia payments" remains with reference to obligation since the discussion of "moral obligation" is in a different context from that of financial-related obligations.
Regulation 2.2. O.ii. Other resources Now regulation 2.2.O.i.	"other resources" (also known as "earmarked" or "restricted") shall mean the resources of UNFPA, other than regular resources, which are received for a specific programme purpose consistent with the mandate of UNFPA and for the provision of specific services to third parties. The addition of the last statement in the definition of other resources is to add clarity to the distinction between other resources and trust funds.
Regulation 2.2.P i	"partially funded" shall mean the authority to allocate funds against current or anticipated future years' revenue.	"partially funded" shall mean the <u>authority to allocate allocation against funds against</u> current or anticipated future years' revenue <u>when the funds are not available in full, subject to restrictions imposed in the UNFPA policies and procedures.</u>	Original definition of partially funded was incomplete. The definition now links to the definition of fully funded which now includes all funding. However, partially funded is when the funds are not available in full.
Regulation 2.2.P .iii.	"programme activities" shall mean activities directly associated with the assessments, planning, implementation, monitoring and	"programme activities" shall mean activities directly associated with the assessments , planning, implementation, monitoring, and	Removed assessment as this is included in the planning process and therefore repetitive.

It shall also include other instruments to define the particulars of such implementation and the respective responsibilities of the parties involved.	Added to ensure the interventions are included. Also aligned with Executive Board decision 2013/31.
Regulation 2.2.P.v.	No definition previously existed in the FRRs.	<u>“property” shall mean tangible assets inclusive of plant and equipment held for use of UNFPA and expected to be used during more than one financial period.</u>	This definition has been added in order to assist the reader of the FRRs in understanding what is referred to as property within the context of the UNFPA FRRs.
Regulation 2.2.R .i.	"regular resources" (also known as “un-earmarked” or “unrestricted”) shall mean resources available to UNFPA that are commingled and untied. To align with Executive Board documents that include core resources in the discussion on regular resources.
New regulation 2.2.T.i		<u>“third party procurement” shall mean procurement conducted by UNFPA, with no direct UNFPA</u>	This is to introduce the definition of third party procurement, which is a major procurement modality within UNFPA. A new

In addition, the inclusion of third party procurement is to ensure there is a clear exclusion of third party procurement from trust funds.</p>
New regulation 2.2.U.iv.		<p><u>“UNFPA assistance” shall mean the UNFPA contribution to programmes funded from UNFPA resources.</u></p>	<p>In the last revision the definition for UNFPA assistance was removed. United Nations Office of Legal Affairs (OLA) commented that it is used in many places throughout the text and should probably be defined. This is to introduce a definition for UNFPA assistance that is referred to within the FRRs but has previously not been defined.</p>

Once the programme is financially closed, subsequent refunds can only be credited to regular resources. In addition, the rule has been escalated to a regulation as the discussion in the previous rule 104.3. had no relationship with regulation 4.12.

The revenue relating to procurement services shall also be used to meet the cost of these services.	Funds received by UNFPA under Regulation 14.8 for procurement of supplies, equipment and services on behalf and at the request of Governments, specialized agencies or other intergovernmental or non-governmental organizations shall be separately accounted for. The revenue relating to procurement services shall also be used to meet the cost of these services.	This is to add clarity to the fact that funds received by UNFPA under procurement arrangements, as described in regulation 15.3. are not trust funds. The discussion on the nature of this funding is therefore being referred to regulation 15.3. The inclusion of procurement here is historic and refers to when PSB used the trust fund modality. That is no longer the case, so this has been moved to a separate regulation. Moved discussion to the new procurement section.

In line with this, UNFPA makes reference to UNFPA policies and procedures – as applicable to the organization.

UNFPA FRRs have eliminated reference to the term obligation as “commitments” is a more suitable term. In this regard, unliquidated obligations have been replaced with accrual which is an improved term, and in line with the UNDP approach. In addition, project has been replaced with workplan to align with the business practice were UNFPA uses workplan instead of project.

The text included below in article XVII is identical to UNDP and UNOPS except for the use of the verb 'assess' instead of 'evaluate' (to avoid confusion with the evaluation function).
