

## STRUCTURED FUNDING DIALOGUES - 22 February 2019

10:00 – 13:00

UNHQ Conference Room 5

Co-chaired by Sweden and Egypt

Draft Agenda

\* \* \*

With the adoption of the Strategic Plan, 2018-2021, there is great momentum to boost the political and financial support of Member States for predictable and sustainable financing in order to achieve the three ambitious transformative results outlined in the Strategic Plan, and to contribute to the implementation of the 2030 Agenda for Sustainable Development. In line with the QCPR, ongoing reform proposals for the United Nations development system, and Executive Board decisions, UNFPA has developed a proposal approved by the Executive Board in September 2018 to improve the functioning and effectiveness of the structured funding dialogues (2018/18). The goal of the structured funding dialogues is to arrive at a more diverse coalition of donors, as well as predictable and commensurate financing for the realization of universal access to sexual and reproductive health and reproductive rights for the next three cycles of the strategic plan towards 2030. This will be achieved through gaining greater understanding by member states of the funding situation at various points in the year, and the operationalization of UNFPA funding architecture within the broader framework of the SG Funding Dialogue and Compact.

**10:00 - 10:30** Recap on the goals, objectives and process for UNFPA Structured Funding Dialogues within the framework of the Secretary General's Funding Compact

**10:30-11:30** Update and discussion on SFD objectives (led-by Sweden)

- Funding needs, gaps and projections
- Aligning resources with programmatic needs
- Visibility of results achieved, donors and partners

**11:30-12:30** In-depth discussion on multi-year funding and number of core-contributors (led by Egypt)

- Where are we?
- What would it take to secure more multi-year commitments from member states?
- How can UNFPA help in that regard?
- How can co-champions and/or multi-year contributors encourage more core-contributors and predictable funding?

**12:30-13:00** Subjects to be discussed in 2019 SFDs: inputs and comments from member states
