EXECUTIVE BOARD DECISION TRACKING TABLE FOR 2020

The following matrix keeps track of the implementation of specific and time-bound requests to UNFPA contained in Executive Board decisions. The decision-tracking matrix is revised on a regular basis to keep the information relevant and up-to-date.

The full text of the Decisions per Executive Board sessions is available by clicking on the decision. The full compendium of Decisions adopted by the Executive Board in 2020 can be found on the UNFPA Executive Board Website.

The status of a decision is indicated as follows: (1) GREEN ● signifies (a) ‘completed’ (action has been completed or decision is no longer relevant) or (b) ‘ongoing’ (action in progress, if a recurring item); (2) YELLOW ● signifies an action is ‘partially completed’ (action in progress, with a due date, if relevant).

<td>Annual Report and Strategic Plan</td>
<td>Policy and Strategy Division</td>
<td>Para 6. <strong>Requests</strong> that UNFPA accelerate its efforts to implement the common chapter, together with UNDP, UNICEF and UN-Women, including by developing the necessary tracking framework within the respective integrated results and resources frameworks of their current strategic plans, following the recommendations of the joint report on the evaluability assessment of the common chapter dated 30 March 2020 and in the context of the repositioning of the United Nations development system, and to present a joint update on the progress to the Executive Board at the second regular session 2020;</td>
<td>Second Regular session 2020</td>
<td>In responding to this request, UNFPA worked closely with UNDP, UNICEF and UN Women in developing the common chapter tracking framework within the respective IRRFs. UNFPA has continued to accelerate its efforts to implement the common chapter in the context of ongoing UN reforms, both in collaboration with the Common Chapter agencies and beyond those agencies. A joint informal by the 4 agencies presented a joint update on the progress in late August 2020. In addition, a joint workshop on 15 December 2020, inter alia, shared lessons on working together. Moreover, on 4 December 2020, the tracking framework on the common chapter of the Strategic Plans was shared with the Executive Board.</td>

| Internal Audit and Investigation | Office of the Executive Director, Division for Human Resources | Para 10. Notes with concern the rising number of investigation cases carried over from past years, welcomes that human resources have been strengthened and encourages UNFPA to effectively deploy these resources to reduce the existing caseload; | Ongoing | UNFPA’s commitment to provide sufficient resources for the independent internal audit and oversight function is reflected in the steady increase in investments over the years. Even in times of financial challenges and reductions in income during the 2014-2017 and 2018-2021 cycle, UNFPA safeguarded the budgets for the two independent functions and did not reduce their allocations, unlike for other parts of the organization. This is evidenced by an increase of 133% in the Office of Internal Audit and Investigations Services (from $17.1 million in 2010 to $39.9 million for 2022-2025).

The highest priority for OAIS is to address the chronic backlog of cases while at the same time assessing and investigating new complaints and reports of misconduct. To achieve this, OAIS is actively seeking to close backlog cases received in 2020 and prior years, with special emphasis placed on closing matters from 2017 and 2018 first.

In addition to 238 carryover cases from 2021 and prior years, OAIS registered a total of 327 new matters in 2022. Of these new matters, 161 were registered as non-cases after initial screening and triage and, for the remaining 166 matters, OAIS opened 166 new cases – a sharp increase from new case levels in 2021 (118), 2020 (116) and 2019 (112) that exacerbated an already heavy workload for the Investigation Branch.

Nonetheless, OAIS adopted measures to hasten the investigation process by streamlining procedures, reallocating responsibilities, enhancing delegation of authority, and strengthening quality assurance. OAIS also engaged a specialized investigative firm to assist in the reduction of the backlog, as well as hired five new consultants. Further, the Investigation Branch explored other internal measures and changes to existing investigative tools (e.g., digital forensic capability), policies and procedures to | In Progress |
reduce the existing caseload, as well as how to respond more rapidly to incoming complaints.

As a result of these measures, of 98 cases closed at year-end 2022, 64 (65 per cent) consisted of backlog cases (considered as cases received by OAIS prior to 2022). The higher number of cases, both received and closed in 2022, reflects OAIS efforts and its strategy in addressing incoming high-priority cases to prevent a build-up of future backlogs while, at the same time, addressing open cases carried over from prior years.

To further expedite the issuance of investigation reports, OAIS will, in 2023, aim to complete recruitment for all vacant posts, as well as expand the number of consultants working on quality assurance.

Further, following the Executive Director’s approval, in April 2023, of a carryover of unspent budget balances of $2.1 million in 2022 to 2023 to create 11 temporary posts on a budget-neutral basis in 2023, the audit and investigation function is augmented with additional temporary posts to help tackle the caseload.

<td>Internal Audit</td>
<td>Office of the Executive Director, Division for Human Resources, Office of Audit and Investigation Services</td>
<td>Para 11. Expresses its continuing support for the strengthening of the audit and investigation functions at UNFPA, and for the provision of sufficient resources to discharge their mandate;</td>
<td>Ongoing  UNFPA’s commitment to provide sufficient resources for the independent internal audit and oversight function is reflected in the steady increase in investments over the years. Even in times of financial challenges and reductions in income during the 2014-2017 and 2018-2021 cycle, UNFPA safeguarded the budgets for the two independent functions and did not reduce their allocations, unlike for other parts of the organization. This is evidenced by an increase of 133% in the Office of Internal Audit and Investigations Services (from $17.1 million in 2010 to $39.9 million for 2022-2025). In the context of the previous mid-term review (Strategic Plan 2018-2021) and following review by the Oversight Advisory Committee, OAIS put forward a proposal to management for strengthening both the audit and investigation functions. As a result, as part of the integrated budget planning process for the 2022-2025 strategic plan cycle, four new posts were created to augment OAIS staffing - one in internal audit and three for the Investigation Branch. In 2022, the Executive Director approved a first phase of OAIS restructuring, implemented through existing post reclassifications on a budget-neutral basis. In accordance with revised applicable policy and procedures adopted by management to reinforce the independence of OAIS in response to Executive Board decisions, and following a recommendation of the Resource Management Committee, a carryover of unspent budget balances of $2.1 million in 2022 to 2023 was approved by the Executive Director in April 2023. The unspent budget balance from 2022 will be used, in the interim, to create 11 temporary posts on a budget-neutral basis in 2023.</td>
<td>In Progress</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
The Executive Director’s approval included $2.7 million to fund the 11 temporary posts in 2024 and will be funded from 2022 savings from other units other than OAIS since 2022 OAIS savings were used for 2023. Subject to the overall available resources, funding requirements beyond 2024 for these posts, will be proposed to the Executive Board to be formalized or regularized during the midterm review of the UNFPA Strategic Plan, 2022-2025, and the Integrated Budget, 2022-2025, in June 2024.

The initial OAIS budget for 2023 to support its activities was $9.9 million. Following carryover of the unspent 2022 budget balances of $2.1 million to 2023, the revised budget for the year is $12.0 million (i.e., $9.9 million plus $2.1 million).

As requested by the Executive Board in its decision No. 2022/15, OAIS will present to the Board, at its Annual Session in June 2023, how it (OAIS) will utilize its available funds and the budget estimates required for the execution of its full mandate.

</table>
Para 3. Encourages UNFPA to strive to progressing towards an allocation of at least 1.4 per cent and up to 3 per cent of its total programme expenditure to the evaluation function, as embedded in the UNFPA Evaluation Policy of 2019;

Ongoing

UNFPA has provided additional resources for the evaluation function in its Integrated Budget 2022-2025 proposal which was approved by the Executive Board.

UNFPA’s commitment to provide sufficient resources for the evaluation function is reflected in the steady increase in investments over the years. Even in times of financial challenges and reductions in income during the 2014-2017 and 2018-2021 cycle, UNFPA safeguarded the budgets for the two independent functions and did not reduce their allocations, unlike for other parts of the organization. This is evidenced by an increase of over 308% in the Evaluation Office (from $4.2 million in 2010 to $17.2 million for 2022-2025).

In addition, the quadrennial budgeted evaluation plan (QBEP) 2022-2025 includes funding for all planned centralized and decentralized evaluations. UNFPA has further strengthened the financial ring-fencing mechanism to support the implementation of regional and country programme evaluations.

Mirroring the rising income of the organization, the expenditure on evaluation nearly tripled between 2014 and 2022, reaching the highest expenditure (in absolute terms) in the evaluation function. In relative terms, the 2022 expenditure on evaluation represents 0.80 per cent of the total UNFPA programme expenditure.

Although the ratio is below the evaluation policy norm of 1.4 per cent to 3% of the total programme budget for the evaluation function, in real terms, the total expenditure on evaluation function in 2022 increased by 7 per cent over 2021 ($9.03 million). Overall, the expenditure for the evaluation function in 2022 amounted to $9.7
24 million, the highest amount ever spent in the evaluation function. In terms of economies of scale, as the income of the organization grows, the proportion of spending on evaluation will conversely decrease, even with nominal growth and additional investments. Thus, the relative decrease in the ratio of evaluation expenditure is reflective of the increased total programme expenses in 2022.

Specific actions UNFPA is taking under the Humanitarian Capacity Development Initiative include: strengthening its humanitarian supplies and supply chain management functions; strengthening its human resource management and humanitarian leadership development functions; ensuring the organization’s humanitarian function is appropriately resourced to ensure delivery of the expected results on the ground; and ensuring timely and effective communication on humanitarian needs and deliveries. A fuller update on progress on implementing the evaluation’s recommendations has been included in the humanitarian annex to the Executive Director’s annual report to the Board, which was posted online in advance of the 2023 Annual Session, as well as in the same annex posted in advance of the 2022 and prior Annual Sessions too. A third briefing to the Board on humanitarian action took place in January 2023, following those in January 2022 and January 2021.
