Through the MTR process, UNFPA identified challenges to advancing leaving no one behind, including social and cultural barriers, lack of disaggregated data, and geographic barriers to reach those furthest behind.</p> <p>To improve the progress and overcome the challenges, UNFPA is in the process of developing specific strategies and guidance, including prioritizing the furthest behind populations, enhancing partnerships and resource mobilization efforts, and strengthening adaptive management across all levels.</p> <p>As part of the SP 2022-2025 development process, the business model, including the resource allocation review, will take full consideration of the funding approach in supporting the achievement of these outputs in the next Strategic Plan.</p>	In Progress
