In the latest BoA report issued in July 2021, UNFPA successfully closed 27 out of 33 recommendations and thereby achieved an 82% implementation rate. UNFPA has also implemented five out of six remaining recommendations in March 2022. A number of controls will be implemented within the new system and one of the key deliverables from the new ERP will be provision of better and more timely information to drive management action. The adopted technology will support the realization of an interoperability	In Progress

## Annual Session 2021 (7-11 June 2021)

<a href="#">2021/8 Implementation of the UNFPA Strategic Plan, 2018-2021: Report of the Executive Director</a>	Annual Report and Strategic Plan		Para 1. Welcomes the unqualified audit opinions on UNDP, UNCDF, UNFPA and UNOPS issued by the United Nations Board of Auditors for 2019;			No actions required
			Para 2. Notes with appreciation the progress made by UNFPA in achieving the results of the UNFPA strategic plan, 2018-2021, pursuant to the integrated results and resources framework, during the penultimate year of its implementation			No actions required
	Annual Report and Strategic Plan	Division for management services, Division of Communications and Strategic Partnerships, Policy and Strategy Division	Para 3. Notes with concern the widening financing gap in achieving the three transformative results as a result of the COVID-19 pandemic, and in this regard calls on UNFPA to set ambitious yet prudent income projections, coupled with a pragmatic yet achievable resource mobilization strategy for the next strategic plan, 2022-2025.	Ongoing	UNFPA has set ambitious, yet achievable income targets which form the basis of its Integrated Budget proposal for 2022-2025.	Completed and ongoing 
<a href="#">2021/9 UNFPA evaluation</a>	Evaluation		Para 1. Takes note of the present report on the evaluation function, and of the programme of work and budget of the Evaluation Office in 2021;			No actions required
			Para 2. Welcomes the efforts made by UNFPA and the progress achieved in strengthening the evaluation function, in actively adapting the evaluation function to the COVID-19 crisis, in contributing to United Nations system-wide evaluation efforts and in fostering national evaluation capacity development;			No actions required

			Para 3. Reaffirms the role played by the evaluation function and underscore the importance of high-quality, independent evaluative evidence in the context of the UNFPA Strategic Plan, 2018-2021, and its contribution to the development of the new UNFPA strategic plan for 2022-2025, and implementation of the 2030 Agenda for Sustainable Development;	No actions required
--	--	--	--	---------------------

		Policy and Strategy Division, Evaluation Office	Para 4. Encourages UNFPA to design its integrated results and resources framework in line with applicable guidance of the 2020 quadrennial comprehensive policy review of operational activities for development of the United Nations system (QCPR), and requests UNFPA to harmonize, where appropriate, its integrated results and resources framework with other United Nations entities, with a focus on all results levels, and maximize the use of common results indicators, all with the goal of advancing United Nations development system contributions to the Sustainable Development Goals and to further strengthen system-wide evaluation;	Second Regular session 2021	As recommended in the 2020 quadrennial comprehensive policy review, the UNFPA strategic plan (2022-2025) goal and outcomes have been conceptualized based on the 2030 Agenda for Sustainable Development (General Assembly resolution 70/1), with the results to be achieved by 2030. Hence, the impact and outcome indicators in the integrated results and resources framework (IRRF) are either the same or closely related to the Sustainable Development Goal (SDG) indicators. By adopting the SDG indicators in the UNFPA IRRF, the outcomes of the UNFPA strategic plan, 2022-2025, reflect the results shared with other partner organizations. The IRRF also includes some indicators at the output level that measure the contribution to joint programmes. Common indicators are the same in the results and resources frameworks of at least two entities. They are drawn, where possible, directly from other globally agreed frameworks – including the QCPR Monitoring and Reporting Framework, 2021-2024. Complementary indicators are not repeated verbatim in the results and resources frameworks of another United Nations entity. However, they are related to or provide different but complementary insights into the same issue, high-level result and/or area of complementary work.	Completed 
	Evaluation	Policy and Strategy Division, Evaluation Office, Office of the Executive Director	Para 5. Requests UNFPA to provide in a timely manner, ahead of the second regular session of 2021, more detailed information on the integrated results and resources framework, including on its relationship to the QCPR monitoring and reporting framework;	Second regular session 2021	The Integrated Results and Resources Framework was developed and shared with the Executive Board in advance of the Second Regular Session 2021; it took note of the IRRF in the decision endorsing the new Strategic Plan.	Completed 

	<p>Evaluation</p>	<p>Policy and Strategy Division, Division for management services</p>	<p>Para 6. Encourages UNFPA to continue to increase investments towards an allocation of at least 1.4 per cent and up to 3 per cent of its total programme expenditure to the evaluation function, as articulated in the UNFPA Evaluation Policy of 2019.</p>	<p>Ongoing</p>	<p>UNFPA has provided additional resources for the evaluation function in its Integrated Budget 2022-2025 proposal which was approved by the Executive Board.</p> <p>UNFPA’s commitment to provide sufficient resources for the evaluation function is reflected in the steady increase in investments over the years. Even in times of financial challenges and reductions in income during the 2014-2017 and 2018-2021 cycle, UNFPA safeguarded the budgets for the two independent functions and did not reduce their allocations, unlike for other parts of the organization. This is evidenced by an increase of over 308% in the Evaluation Office (from \$4.2 million in 2010 to \$17.2 million for 2022-2025).</p> <p>In addition, the quadrennial budgeted evaluation plan (QBEP) 2022-2025 includes funding for all planned centralized and decentralized evaluations, and UNFPA has further strengthened the financial ring-fencing mechanism to support the implementation of country programme evaluations.</p> <p>In relative terms, the 2021 expenditure on evaluation represents 0.83 per cent of the total UNFPA programme expenditure. Similar to 2020, the evaluation function expenditure in 2021 was lower than what was originally budgeted due to the COVID-19 induced travel restrictions for in-country data collection and evaluation capacity-development initiatives. Nonetheless, the actual expenditures grew by 5.5 per cent, from \$8.5 million to \$9.03 million. Overall, without the COVID-19 related reduction, the budgeted original allocation for the evaluation function (at central and decentralized levels) was \$9.48</p>	<p>In Progress</p>

					<p>million, representing 0.87 per cent of the total UNFPA programme expenses for 2021. Although this still falls short of the Evaluation Policy target of 1.4 per cent to 3 per cent against the overall UNFPA programme expenses, the regular resources expenditure of the evaluation function (including net institutional budget) was \$5.2 million, representing 2.0 per cent of the UNFPA regular resources programme expenses, which is within the bounds of the target established in the evaluation policy.</p> <p>The economies of scale are important to be highlighted: As the organization grows, the proportion of spending on evaluation will conversely decrease, even with nominal growth and additional investments.</p> <p>Policy and Strategy Division with Evaluation Office, and the support of Division of Management Services, also established a financial ring-fencing mechanism to support the implementation of country programme evaluations.</p>	
<a href="#">2021/11 Reports of UNDP, UNFPA and UNOPS on internal audit and investigations, and management responses</a>	Internal Audit and Investigation		Para 1. Welcomes the progress of UNDP, UNFPA and UNOPS in addressing audit-related management issues in 2020;		No actions required

Expresses continuing support for the strengthening of the internal audit and investigation functions at UNFPA, notes with concern the number of investigation cases carried over from past years, and calls on UNFPA management to provide sufficient resources for the investigation function to effectively deploy these resources to reduce the caseload;	Ongoing	<p>UNFPA's commitment to provide sufficient resources for the independent internal audit and oversight function is reflected in the steady increase in investments over the years. Even in times of financial challenges and reductions in income during the 2014-2017 and 2018-2021 cycle, UNFPA safeguarded the budgets for the two independent functions and did not reduce their allocations, unlike for other parts of the organization.
