In the BoA report issued in July 2021, UNFPA successfully closed 27 out of 33 recommendations and thereby achieved an 82% implementation rate. UNFPA has also implemented five out of six remaining recommendations in March 2022. The remaining one recommendation is related to the development of the global travel module that is led by UNDP on behalf of other UN agencies with a launch date of January 2023. | Completed  |
| | Recommendations of the Board of Auditors | Office of the Executive Director/ Division for Management Services; ITSO | Para 10. As discussed at the informal Board session held in March 2022, UNFPA decided to adopt the inter-agency shared Quantum ERP system. | 2021/8 Implementation of the UNFPA Strategic Plan, 2018-2021: Report of the Executive Director | Annual Report and Strategic Plan | | Para 1. Welcomes the unqualified audit opinions on UNDP, UNCDF, UNFPA and UNOPS issued by the United Nations Board of Auditors for 2019; | | | No actions required |
| | | | Para 2. Notes with appreciation the progress made by UNFPA in achieving the results of the UNFPA strategic plan, 2018-2021, pursuant to the integrated results and resources framework, during the penultimate year of its implementation | | | No actions required |
| | Annual Report and Strategic Plan | Division for management services, Division of Communications and Strategic Partnerships, Policy and Strategy Division | Para 3. Notes with concern the widening financing gap in achieving the three transformative results as a result of the COVID-19 pandemic, and in this regard calls on UNFPA to set ambitious yet prudent income projections, coupled with a pragmatic yet achievable resource mobilization strategy for the next strategic plan, 2022-2025. | Ongoing | UNFPA has set ambitious, yet achievable income targets which form the basis of its Integrated Budget proposal for 2022-2025. | Completed and ongoing  |

| | | | contributing to United Nations system-wide evaluation efforts and in fostering national evaluation capacity development; | | | |
| | | | Para 3. Reaffirms the role played by the evaluation function and underscore the importance of high-quality, independent evaluative evidence in the context of the UNFPA Strategic Plan, 2018-2021, and its contribution to the development of the new UNFPA strategic plan for 2022-2025, and implementation of the 2030 Agenda for Sustainable Development; | | | No actions required |
| | | Policy and Strategy Division, Evaluation Office | Para 4. Encourages UNFPA to design its integrated results and resources framework in line with applicable guidance of the 2020 quadrennial comprehensive policy review of operational activities for development of the United Nations system (QCPR), and requests UNFPA to harmonize, where appropriate, its integrated results and resources framework with other United Nations entities, with a focus on all results levels, and maximize the use of common results indicators, all with the goal of advancing United Nations development system contributions to the Sustainable Development Goals and to further strengthen system-wide evaluation; | Second Regular session 2021 | As recommended in the 2020 quadrennial comprehensive policy review, the UNFPA strategic plan (2022-2025) goal and outcomes have been conceptualized based on the 2030 Agenda for Sustainable Development (General Assembly resolution 70/1), with the results to be achieved by 2030. Hence, the impact and outcome indicators in the integrated results and resources framework (IRRF) are either the same or closely related to the Sustainable Development Goal (SDG) indicators. By adopting the SDG indicators in the UNFPA IRRF, the outcomes of the UNFPA strategic plan, 2022-2025, reflect the results shared with other partner organizations. The IRRF also includes some indicators at the output level that measure the contribution to joint programmes. Common indicators are the same in the results and resources frameworks of at least two entities. They are drawn, where possible, directly from other globally agreed frameworks – including the QCPR Monitoring and Reporting Framework, 2021-2024. Complementary indicators are not repeated verbatim in the results and resources frameworks of another United Nations entity. However, they are related to or provide different but complementary insights into the same issue, high-level result and/or area of complementary work. | Completed  |

| | Evaluation | Policy and Strategy Division, Evaluation Office, Office of the Executive Director | Para 5. Requests UNFPA to provide in a timely manner, ahead of the second regular session of 2021, more detailed information on the integrated results and resources framework, including on its relationship to the QCPR monitoring and reporting framework; | Second regular session 2021 | The Integrated Results and Resources Framework was developed and shared with the Executive Board in advance of the Second Regular Session 2021; it took note of the IRRF in the decision endorsing the new Strategic Plan. | Completed  |
| | Evaluation | Policy and Strategy Division, Division for management services | Para 6. Encourages UNFPA to continue to increase investments towards an allocation of at least 1.4 per cent and up to 3 per cent of its total programme expenditure to the evaluation function, as articulated in the UNFPA Evaluation Policy of 2019. | Ongoing | <p>UNFPA's commitment to provide sufficient resources for the evaluation function is reflected in the steady increase in investments over the years. Even in times of financial challenges and reductions in income during the 2014-2017 and 2018-2021 cycle, UNFPA safeguarded the budgets for the two independent functions and did not reduce their allocations, unlike for other parts of the organization. This is evidenced by an increase of over 308% in the Evaluation Office (from \$4.2 million in 2010 to \$17.2 million for 2022-2025).</p> <p>UNFPA has provided additional resources for the evaluation function in its Integrated Budget 2022-2025 proposal which was approved by the Executive Board. In addition, the quadrennial budgeted evaluation plan (QBEP) 2022-2025 includes funding for all planned centralized and high level and strategic decentralized evaluations. UNFPA has further strengthened the financial ring-fencing mechanism to support the implementation of regional and country programme evaluations.</p> <p>Mirroring the rising income of the organization, the expenditure on evaluation nearly tripled between 2014 and 2022. Overall, the expenditure for the evaluation function in 2022 amounted to \$9.7 million,</p> | Completed and on-going  |

| | | | | | <p>the highest amount ever spent in the evaluation function.</p> <p>In relative terms, this represents 0.80 per cent of the total UNFPA programme expenditure, as compared to 0.83 per cent in 2021. Although the ratio is below the evaluation policy norm of 1.4% to 3% of the total programme budget for the evaluation function, in real terms, the total expenditure on evaluation function in 2022 increased by 7 per cent over 2021 (\$9.03 million), the highest amount ever spent in the evaluation function..</p> <p>In terms of economies of scale, as the income of the organization grows, the proportion of spending on evaluation will conversely decrease, even with nominal growth and additional investments. Thus, the relative decrease in the ratio of evaluation expenditure is reflective of the increased total programme expenses in 2022. Further proposals will be included in the new evaluation policy to be presented to the Board for approval at the first regular session 2024.</p> | |
