

OUR PARTNERSHIP

A global force for health and equality

Germany is a steadfast advocate for investing in gender equality and advancing sexual and reproductive health and rights. In 2023, Germany was the second largest contributor to UNFPA's core resources which provide flexible funds enabling the organization to mount an agile response to unforeseen challenges.

Saving lives of mothers and newborns

Every day, 800 women continue to die from preventable causes related to pregnancy and childbirth. As a main donor to the Maternal and Newborn Health Thematic Fund, Germany provides catalytic support to ensure that every woman, adolescent girl and newborn has equitable and accountable access to quality sexual and reproductive health and rights.

Fighting harmful practices

Female genital mutilation (FGM) is a harrowing form of gender-based violence that endangers the lives of millions of women and girls each year. Germany stands firmly against this harmful practice and contributes to global efforts to eliminate female genital mutilation, paving the way for a brighter future for women and girls.

ABOUT UNFPA

UNFPA is the United Nations sexual and reproductive health agency. Our mission is to deliver a world where every pregnancy is wanted, every childbirth is safe and every young person's potential is fulfilled.

All UNFPA funding is voluntary – we rely on partners and donors like you to champion our mission and support our programmes!

Our three transformative results:

end preventable maternal deaths

end the unmet need for family planning

end gender-based violence and all harmful practices
