

OUR PARTNERSHIP

Committed to the core

Core funding means UNFPA is able to plan ahead and play a global normative role as an advocate for sexual and reproductive health. These flexible resources enable us to deliver long-lasting results that promote, protect and fulfill human rights. By prioritizing core funding, Sweden empowers UNFPA to achieve transformative results, leaving no one behind.

Partners against female genital mutilation

Female genital mutilation continues to plague the physical and mental health of millions of girls and women. Sweden stands at the forefront of global efforts to eliminate female genital mutilation and paves the way for a future where women and girls can live free from this harmful practice.

A champion of maternal health

For decades, Sweden has been one of UNFPA's key strategic partners and the largest donor in reducing maternal mortality and morbidity. In 2023, Sweden's commitment proved especially valuable for countries in East and Southern Africa challenged by structural, social and health system barriers.

ABOUT UNFPA

UNFPA is the United Nations sexual and reproductive health agency. Our mission is to deliver a world where every pregnancy is wanted, every childbirth is safe and every young person's potential is fulfilled.

All UNFPA funding is voluntary – we rely on partners and donors like you to champion our mission and support our programmes!

Our three transformative results:

end preventable maternal deaths

end the unmet need for family planning

end gender-based violence and all harmful practices

UNFPA and Sweden

A partnership for women and girls

Sweden's support to UNFPA means more women and girls worldwide are empowered to realize their full potential while being shielded from violence and harm.
