North-East Syria Flash update #10

08th – 21st December 2019

Picture Credit: UNFPA, SYRIA
Gender Based Violence (GBV):

- UNFPA through its implementing partners operates a total of 6 Women and Girls Safe Spaces (WGSS) in NES including: 2 Emergency WGSS’ in Al-Hol and Areesha camps, 1 WGSS in Al-Hassakeh city, 1 WGSS in Qamishli and 2 WGSS’ in Raqqa (Ar-Raqqa and Taqqa cities) Governorate.
- WGSS’ provide a range of GBV services including: GBV Case Management, Psycho-social Support (PSS), GBV awareness raising, vocational trainings, recreational activities, referral to more specialized services such as mental health, and in more physically severe cases. The WGSS’ serve newly displaced women and adolescent girls as well as the people in the host communities.
- UNFPA provides immediate response GBV services integrated with reproductive health services through mobile teams and Sexual and Reproductive Health Clinics and through integrated RH/GBV mobile teams (MTs) to the newly displaced people including referral to existing services in the camps and shelters.
- UNFPA in partnership with 4 implementing partners, launched the 16 days campaign to end violence against women. The theme for 2019 was Orange the World: Generation Equality Stands Against Rape. from 25 November until 10 December. A total of 110 activities were conducted. Most of the activities aimed at raising awareness on sexual harassment. UNFPA, through its IPs focused on the IDP camps in the area.

Reproductive Health (RH):

- To meet the dire needs of the most vulnerable population (women, adolescent girls and children), UNFPA provides ante-natal care (ANC), post-natal care (PNC), family planning (FP), treatment of reproductive tract infections (RTIs) and urinary tract infections (UTIs), pediatric, primary health care (PHC) and referral services, in addition to deliveries.
- During this period, UNFPA and its implementing partners continued the provision of RH services including: pregnancy care, family planning, infectious diseases treatment and care, pediatric, primary health care, PSS, and referral services for individuals in 22 shelters in Al-Hassakeh city in addition to 9 villages in the rural areas of Al-Hassakeh (4 in Rural Tal-Tamer and 5 in Abdul Aziz Mountain), Ar-Raqqa City (Tabqa and Jurinia)
- In Areesha camp, UNFPA reached 255 women of reproductive age, out of which 83 are pregnant.
- In Mahmoudi Camp, UNFPA reached 151 women of reproductive age, out of which 52 are pregnant.
- In Tweihina Camp, UNFPA reached 64 women of reproductive age, out of which 23 are pregnant.
- From 9th October until the 21st of December, UNFPA has supported 34 deliveries: 23 normal deliveries and 11 C-Sections.

- **2 GBV mobile teams.**
- **1 emergency WGSS**
- **2 RH Static Clinic**
- **1 Normal Delivery Clinic**
- **1 Hospitainer**
- **23,168 kits** distributed
- **163,660 Sanitary Napkins** distributed
Challenges

- The continued challenges in NES collective shelters include: overcrowding, inadequate supply of winterized clothes to meet the needs, lack of drinking water, GBV and protection concerns such as lack of adequate lighting and common WASH facilities in shelters. Additionally, poor living conditions in collective shelters and lack of livelihood opportunities further put women in protection risks including GBV. Additionally, there is a challenge of lack of specialized and trained Health Service providers.

Next in Response

- 8 trucks containing 10,000 winterized protection dignity kits, 100,000 sanitary napkin packs, 10,782 blankets, 10,782 scarfs, 2,000 flashlights, and 30 wheelchairs are awaiting to be transported to Qamishly and distributed.
- 7 trucks containing 5,594 female dignity kits, 3723 male dignity kits, 449 pregnant and lactating women kits, 239 adolescent dignity kits, and 30,000 sanitary napkin packs are awaiting to be transported to Deir-ez-Zour and distributed.
- 1 truck containing: 1000 female dignity kits and 11,470 sanitary napkin packs are awaiting to be transported to Ar-Raqqa and distributed.
- In response to the challenge of lack of trained health service providers, UNFPA has planned to conduct two (2) Minimum Initial Service Package (MISP) trainings for UNFPA IPs in Al-Hassakeh Governorate. The first MISP training was conducted in Qamishli City on December 21st 2019.

Immediate Needs

The UNFPA funding gap for the NES immediate needs, for the period Nov. 2019 - March. 2020 is:

1. NES (Nov. 2019-March. 2020)
   Kits: 4,120,000
   Services: 1,080,000
   **Total 5,200,000 USD**

   Kits: 1,860,300 USD
   Service: 352,000 USD
   **Total 2,210,000 USD**
